

Meet Your Framers

Erica Moulton - Manager and Framers

I have been manager of Foster Framing and Fine Arts since Feb. 2005. I have been framing since 1996. I learned most of my framing techniques in high school and college, the rest I learned on the job with an artist who paints on feathers and at Michael's Arts and Crafts in the States. I also work as a freelance artist/craftsman, and a freelance astrologer. Other arts and crafts I do include: light art, clothing, collage, pottery, sculpture, woodworking, jewelry, paper art, painting, drawing, weaving, macramé, knitting, crochet, design, computer art, photography, book binding and making, paper making, beading, and any and every combination of the above. Please come and see all of us here at Foster Framing and Fine Arts. We are proud of what we do and want to show you how.

Sumiko Ura – Instructor and Framers

I have been with Foster Framing and Fine Arts since 2001. I learned Framing from an Art and design school in mainland Japan and on the job training at Foster Framing and Fine Arts. I also participate in Customer Service (training off base). I am part of a friendly staff, oriented towards your needs and making you happy. Please come visit and talk with us about all your framing needs.
