The eBook

Generally: The 800-page book has been fully integrated and cross-linked into all of the classroom videos. It covers every SAT and ACT topic with examples, quizzes, diagrams, graphics, lecture notes, teacher's insights, practice questions, drill questions, detailed explanations and much more. This book is used by schools as their main course of study to prepare students for the SAT and ACT and has sufficient content to be used on its own as the basis of a semester length course.

But when combined with the instructor led video classroom, the eBook becomes a multimedia powerhouse.
